

CS 102: Security, Privacy, and Data

Introductions

- What is a hobby or pastime that you enjoy?
- What would you like to study?
- What is your priority while you are Gettysburg?

Course Mechanics

- Syllabus
- Moodle (why do something in one click, when three will suffice?)
- Overview
 - Security
 - Privacy
 - Data

Discussion

NOTE: You do not need to have any special experience with computers, security, or spreadsheets to be in this course.

- What kind of experience do you have with computers?
- What kind of experience do you have with spreadsheets?
- How do you use AI tools (academics or otherwise)?
